

60th Anniversary of Zambia-Japan Diplomatic Relations

ONE HEALTH SPECIAL SYMPOSIUM FOR ZOOONOSIS CONTROL

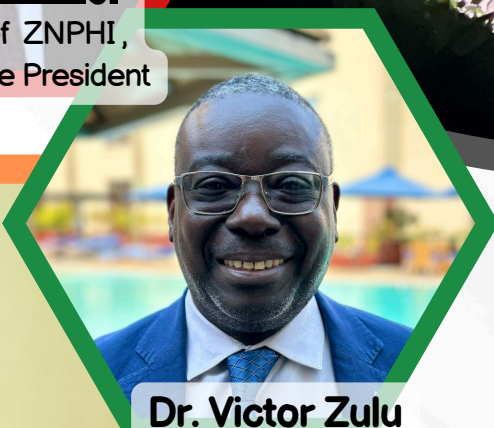

Prof. Roma Chilengi

Director General of ZNPHI,
Health Advisor to The President

Prof. Bernard Hang'ombe

Deputy Vice Chancellor of Copperbelt University,
Center Leader of ACEIDHA

Dr. Victor Zulu

Dean of UNZA-vet

9:30 - 12:00
06 SEPTEMBER, 2024

**LECTURE HALL,
SCHOOL OF VETERINARY
MEDICINE**

Hokkaido University has maintained exchanges with the School of Veterinary Medicine, the University of Zambia (UNZA-vet) for about 40 years. In 2007, The International Institute for Zoonosis Control (IIZC) established the "Hokudai Center for Zoonosis Control in Zambia (HUCZCZ)" within UNZA-vet, and has been actively engaged ever since. Our collaborative research partners, the Zambia National Public Health Institute (ZNPHI), Africa Centre of Excellence for Infectious Diseases of Humans and Animal (ACEIDHA), and UNZA-vet, play significant roles in public health in Zambia. At this symposium, researchers active in the field will discuss responses to anthrax and cholera outbreaks in Zambia, as well as ongoing collaborative research on the Marburg virus. Leaders from each organization will also talk about their missions and activities, and plans to strengthen collaboration on zoonotic disease control based on the One Health approach.

TABLE OF CONTENTS

9:30

Opening Remarks

Prof. Ayato Takada

Director of International Institute for Zoonosis Control (IIZC), Hokkaido University

9:35

Role of Public Health Institutes in the Changing Epidemiology of Infectious Diseases

Prof. Roma Chilengi

Director General of Zambia National Public Health Institute (ZNPHI)

Health Advisor to The President

9:55

Collaboration between UNZA Vet Med, ACEIDHA and HU : A Successful Education and Research Partnership in Africa

Prof. Bernard Hang'ombe

Deputy Vice Chancellor of Copperbelt University, Center Leader of ACEIDHA

10:15

Activities of the University of Zambia Veterinary Clinics

Dr. Victor Zulu

DEAN of School of Veterinary Medicine, University of Zambia

10:30

Break

10:45

Outbreaks of Anthrax and Cholera in Zambia : A One Health Approach to Epidemiology and Public Health Response

Dr. Raymond Hamoonga

One Health Specialist, ZNPHI

11:00

Marburgvirus in Zambia Part I

Dr. Katendi Changla

Lecturer, Researcher, School of Veterinary Medicine, University of Zambia

11:15

Marburgvirus in Zambia Part II

Dr. Masahiro Kajihara

Deputy Director of HUCZCZ, IIZC, Hokkaido University

11:30

Zoonosis Control Partnership: Past and Future

Closing Remarks

Prof. Hirofumi Sawa

Director of HUCZCZ

Institute for Vaccine Research and Development (IVReD), Hokkaido University
